MEMORANDUM FOR: Deputy Director (Intelligence)

SUBJECT: Membership on the DCI's Scientific and
Technical Advisory Panel

1. Dr. Scoville called at 1745 on 7 May to state that the DCI wanted me to serve on the subject panel starting circa 4 June 1963 and asked if I would do it. The obvious answer if you have no objection is affirmative.

2. The committee will be made up of whiz kids from outside government and it has been convened at least on a one-shot basis to serve the DCI. Pete Scoville knows the full terms of reference and as I understand it, it would be expected that I might reflect the consumer response and interest in KH products to date and the needs for the future which might be useful in helping the committee make some judgments and recommendations on developments of new collection systems.

3. Membership indicated so far is:

Chairman: Ed Purcell - Harvard
Members: Richard Garwin - IEM
Jim Baker - Harvard
Din Land - Polaroid
Don Ling - Bell Labs
ACL - NPIC

4. First meetings are to be held in Washington on 4-5 June 1963 to review the state of the art and major steps forward to date. I have no information on OSI or other DD/I participation and seek only to report what little I know as it might relate to me.
